

Alex Morgan

Fictional demonstration profile

Location: Manchester, UK · Email: alex@example.com · Portfolio: [alex.example](#)

Professional Summary

I build small reporting tools and write practical notes about how they work. My experience includes release support, application development and coordinating improvements with the people using the software.

Education

B.Sc. Computer Science, Sample University (fictional), 2020

Professional Experience

Sample Studio (fictional) · Manchester, UK

Software Engineer

2024 - Present

- Built a reporting service with explicit checks for empty inputs and duplicate records.

Junior Software Engineer

2022 - 2023

- Added API tests and documented the expected response when imported data was incomplete.

Release Support Associate

2021

- Reproduced reported issues and kept release checklists focused on user-visible changes.

Application Support Trainee

2020

- Updated setup instructions using questions raised by new colleagues.

Publications

Morgan, A. (2024). Practical notes on small reporting tools. Sample Journal (fictional).

Projects

Garden Planner (fictional)

A small scheduling example.

2024

<https://example.com/garden>

- Recorded watering tasks and made the schedule easy to change.

Skills

Development: Python services, SQL queries and TypeScript interfaces for internal tools.

Working practices: Regression tests, support investigation and clear handover notes.

Languages

English (native), fictional demonstration only
